⚽ Rolando Rivero – Director of Soccer, Deltona Youth Soccer Club

With over 25 years in the game as a player, coach, and program leader, I've dedicated my life to soccer and the development of young athletes. As Director of Soccer at Deltona Youth Soccer Club, I oversee club operations, player development, and long-term growth. My mission is to create an environment where players thrive—technically, tactically, and personally.

I believe soccer is more than a sport; it's a platform for building discipline, leadership, and resilience. My coaching philosophy focuses on mastering fundamentals, developing strategic awareness, and fostering character. I work to ensure every player grows not just as an athlete, but as a person prepared for life's challenges.

Over the years, I've watched players under my guidance elevate their performance, grow in confidence, and advance to higher levels of competition. I emphasize teamwork, role clarity, and communication to build cohesive teams that support one another and succeed together. I also mentor my coaching staff to be objective in their assessments—analyzing data trends, identifying tactical challenges, and transforming those insights into targeted training opportunities. For our youth players, I instill the belief that improvement comes through measurable progress, disciplined effort, and passionate commitment. When objectivity meets purpose, a clear vision emerges—and with it, a path toward meaningful growth.

My player journey includes youth soccer, captaining an NCAA Division I team, playing semi and professionally in Bolivia, and coaching across youth, high school, and collegiate levels. I hold a US Soccer Federation C License, a BA in Integrated Information Systems, and certifications in project management and business intelligence.

I'm proud to serve the Deltona youth soccer community since 2016 and remain committed to shaping the next generation of athletes through thoughtful leadership, hands-on coaching, and a love for the game that never fades.

Respectfully,
Rolando Rivero
